

# OleeVue™

TRANSLUCENT PANELS AND FILMS

## PRODUCT OVERVIEW

OleeVue panels and films are a beautiful and cost effective alternative to laminated glass and encapsulated resin panels. Available in Monotones (monochromatic patterns) or Hues (color-infused patterns), and as ready-to-install panels or self-adhesive film products for maximum flexibility and adaptation to your space. Both pre-designed and custom products can be made to your specification. Panels can be cut to shape or used in full sheets as divider panels, cubicle inserts or artwork. Film can be installed on pre-existing glass to enhance privacy, achieving an elegant look at an affordable price. Visit our website, [oleevue.com](http://oleevue.com) to receive your exclusive access to the OleeVue collection. Samples are also available upon request.

## QUALIFICATIONS AND EXPERIENCE

We currently work with design professionals in the Healthcare, Hospitality, and Education industries. We have sales reps that market our products and are available for demonstrations or in-person meetings. We specialize in screen and digital printing, with a talented team of 60, including creative designers, production specialists, customer service, sales reps, and installation experts.
